LinkedIn:// **HIRITHIK RAJ SINGH**

Skills

PROGRAMMING LANGUAGES
Python,HTML,CSS,JAVASCRIPT

DATABASES
MySQL,MangoDB

OTHERS
pandas,Numpy,Matplotlib
Excel,PowerBI
Tabluea.

Coursework

Data cleaning
Data mining
Data visualization
Data managing
MySQL
Data Analysis

Education

2021-2025
B.E. IN CSE
KARPAGAM COLLEGE OF ENGINEERING
CGPA : 6.7/10

2020-2021
INTERMEDIATE
VIDYAA VIKAS MATRIC HR SEC SCHOOL
Percentage: 73%

20XX-20YY
HIGH SCHOOL
VIDYAA VIKAS MATRIC HR SEC SCHOOL
Percentage: 63%

Experience

2025-NOW **INDRA INSTITUTE OF EDUCATION IN KUNIYAMUTHUR** 2025
Data Scientist in Machine Learning:
Data Scientist with hands-on experience in developing machine learning models using Python, Pandas, NumPy, and Scikit-learn. Skilled in data preprocessing, statistical analysis, and visualizing insights with Matplotlib and SciPy to support data-driven decision making.

Python, Pandas, Numpy, Matplotlib,Scipy,scikitlearn

2025 **Heart Disease prediction (AI Data Science Project)**
Built a predictive model to detect heart disease risk using patient health metrics. Achieved high accuracy through data analysis, feature engineering, and supervised learning techniques.

Python, Pandas, and Scikit-learn for data preprocessing, model training, and evaluation.

2025 **AI project(Jarvis) | Self Project**
working on a voice assistant project that integrated the Gemini (Google PaLM) API using MakerSuite, and your goal was to evolve it into a more advanced AI assistant like google Assistant

Python, Gemini (Google PaLM) API via MakerSuite, SpeechRecognition, pyttsx3, webbrowser, os, datetime, Tkinter/Streamlit.

Achievements/Awards

2023 **smart india hackathon** Participated
Headed a team in hackathon which has been conducted in online based on bus tracking system project.

2024 **IBM** Coding Contest
Attended a coding contest in python.

2023 **Infosys Springboard** leaderboard first place in june
In this I have came to top first in leaderboard in june

Side Project

2024-2025 **Attribute-Based Secure Storage System Leveraging Hash Algorithms in Cloud Environment** Cloud environment,Python
Designed a secure cloud storage system leveraging attribute-based encryption and cryptographic hash algorithms. Ensured data confidentiality, integrity, and fine-grained access control in a cloud environment.

2025 **Identifying Gender From Images of Faces** ML
Identifying gender of a person by looking at his/her Photograph.
